

MADE TO ORDER

CVE Shop Stainless Steel Wall Cowls are stylish and durable vent outlets.

Removable flush backplate with spigot and locating screws. Can have circular, square or rectangular spigots fitted central in the backplate.

Supplied with Stainless Steel Bird Mesh guard as standard.

Larger free area terminals than standard flat duct versions, specifically for larger ducts.

Cowls can be used as both extract air or supply air terminals.

The standard finish for this product is Stainless Steel 430s. Should you require an alternative colour, we can powder coat your louvre to match any RAL/BS colour required.

Options and Accessories

- Circular, square, or rectangular spigot can be fitted to rear backplate
- Insect Mesh can be fitted instead of standard 12.5mm sq bird mesh (at an extra cost)
- Powder coating any RAL or BS colour
